

# Care Compare

Go to [wecaretoolkit.wordpress.com](http://wecaretoolkit.wordpress.com) to get tips on how to use this tool & help us to improve it further for caregivers & professionals :)

I am like a ..... Caregiver

I am like a ..... Caregiver

What works well for me?

What do I struggle with?

How can I improve my Caregiving style?

What works well for me?

What do I struggle with?

How can I improve my Caregiving style?

# Care Circle

Go to [wecaretoolkit.wordpress.com](https://wecaretoolkit.wordpress.com) to get tips on how to use this tool & help us to improve it further for caregivers & professionals :)

1

Draw the Caregiver and care recipient in the centre. Then think about who else are part of the Care Circle?  
Think of (nuclear) family, friends & neighbours, social workers, doctors & nurses, religious figures or support groups.

2

What do they do as caregivers? What is their role and what tasks do they perform?

## Drawing suggestions

Person

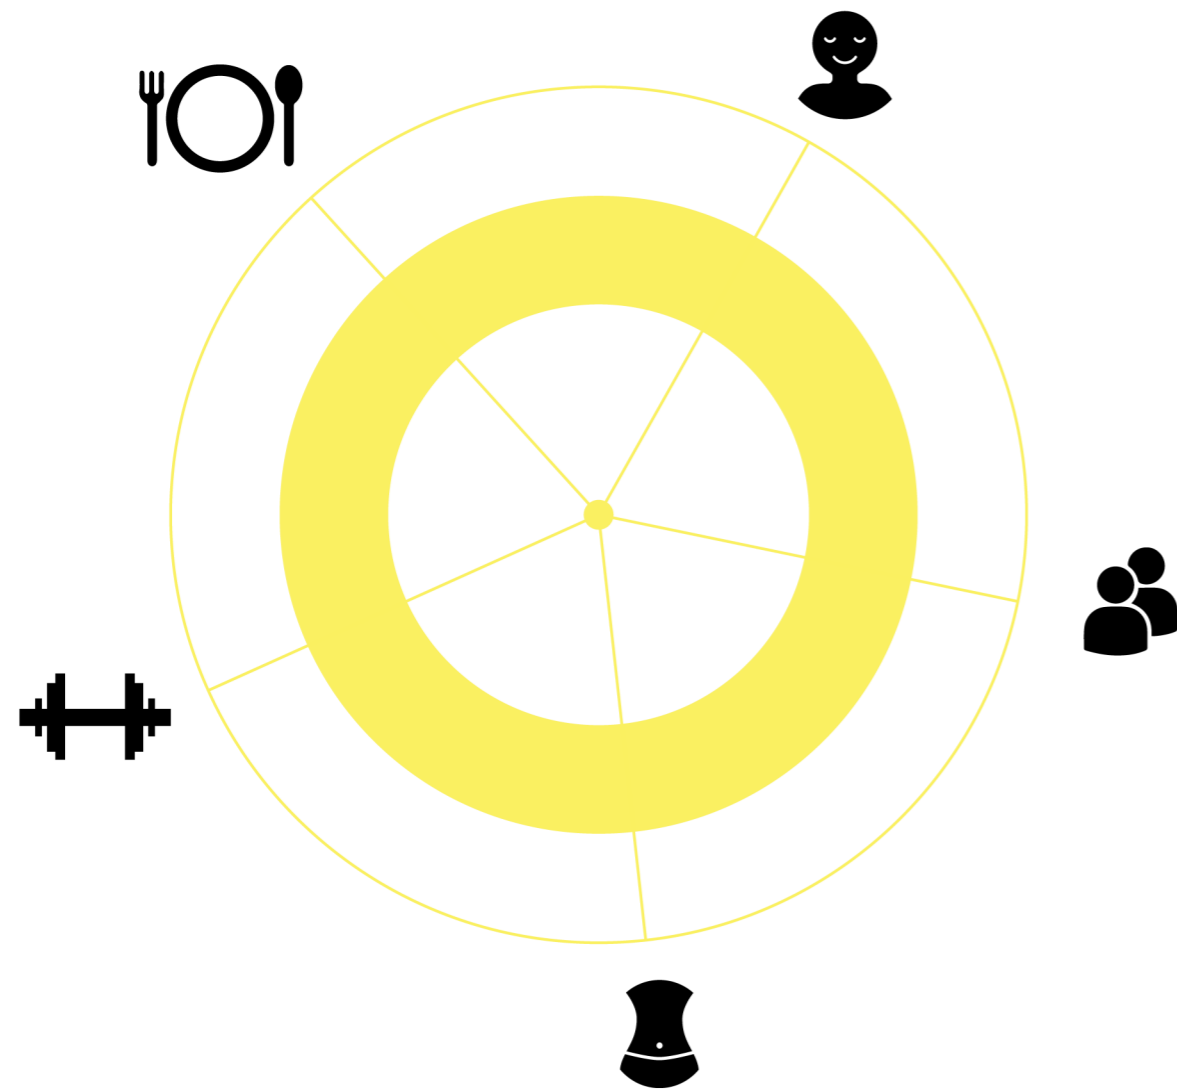

Social care

Healthcare

# Caregiver Wellbeing

Write down what you currently do for each health aspect in your life.

Food

Excercise

Mental

Body

Social

How much attention do you give each aspect of your health and wellbeing?  
Reflect on each aspect and draw a dot on each axis to show importance  
(further out is more important). Do this for all 5 aspects of health and  
wellbeing and connect the dots to view your personal wellbeing map.

As a Caregiver you take care of the health & wellbeing of your loved one but your own health is as important if not more important. Without your health you cannot be a good caregiver to your loved one!

This template is for you and your family manager to discuss your health & wellbeing and to discuss points for improvement.

## Your goal

Tip: Make your goal SMART: Specific, Measurable, Attainable, Realistic and Timely.

# Care Journey Map

Go to [wecaretoolkit.wordpress.com](http://wecaretoolkit.wordpress.com) to get tips on how to use this tool & help us to improve it further for caregivers & professionals :)

BECOMING AWARE	STARTING CAREGIVING	DEVELOPING ROUTINES	CONTINUOUSLY ADAPTING	LOSING CAREGIVER ROLE	REDEFINING IDENTITY
